Parent Notification on Asbestos

In 1986 Congress passed the Asbestos Hazard Emergency Response Act (AHERA). This law required all schools K-12 to be inspected for asbestos containing building materials (ACBM). Those inspections were completed, and the management plan has been submitted to the State. A copy of the management plan is maintained by the Superintendent.

Any asbestos-containing material that was identified in the management plan will continue to be monitored. Users of the District's buildings, both children and adults, have not and will not be exposed to any level of free and harmful asbestos. Covering, enclosing (boxing in), or encapsulation (painting, wrapping or otherwise sealing) has provided the necessary protection from any possible hazards. All response activities are performed by personnel certified by the State Department of Environmental Quality (DEQ) and are supervised by the School District.
