

REVISED POLICY - SPRING 2025 - WELLNESS

Reference:

42 USC §§ 1751, Sec. 204 42 USC § 1771
7 CFR Parts 210 and 220

The Board recognizes that good nutrition and regular physical activity affect the health and well-being of the Academy's students. Furthermore, research concludes that there is a positive correlation between a student's health and well-being and the student's/his/her ability to learn. Moreover, schools can play an important role in the developmental process by which students establish their health and nutrition habits by providing nutritious meals and snacks through the schools' meal programs, by supporting the development of good eating habits, and by promoting increased physical activity both in and out of school.

The Board, however, believes this effort to support the students' development of healthy behaviors and habits with regard to eating and exercise cannot be accomplished by the schools alone. It will be necessary for not only the staff, but also parents and the public at large to be involved in a community-wide effort to promote, support, and model such healthy behaviors and habits with respect to eating and exercise.

The Board sets the following goals in an effort to enable students to establish good health and nutrition habits, healthy nutrition, and physical activity habits:

- A. With regard to nutrition education, the Academy shall:
(See Appendix A.)
- B. With regard to physical activity, the Academy shall:
(See Appendix B.)
- C. With regard to other school-based activities the Academy shall:
(See Appendix C.)
- D. With regard to nutrition promotion, the Academy shall:
(See Appendix D.)

Furthermore, with the objectives of enhancing student health and well-being, and reducing childhood obesity, the following guidelines are established:

(See Appendix E.)

The Board designates the Superintendent, employed by the Board as the individual(s) charged with operational responsibility for verifying that the Academy meets the goals established in this policy.

The Educational Service Provider and the Superintendent shall appoint an Academy wellness committee that meets at least two (2) times per year includes parents, students, representatives of the Academy food authority, educational staff (including physical education teachers), mental health and social services staff, school health professionals, members of the public and Academy administrators to oversee development, implementation, evaluation and periodic update of the wellness policy. The

Wellness Committee shall be an ad hoc committee with members recruited and chosen annually. Academy-level health advisory teams may assist in the planning and implementation of these Wellness initiatives.

The Wellness Committee shall be responsible for:

- A. assessment of the current Academy environment;
- B. review of the Academy's wellness policy;
- C. presentation of the wellness policy to the Board for approval;
- D. measurement of the implementation of the policy;
- E. recommendation for the revision of the policy, as necessary.

Before the end of each school year the Wellness Committee shall recommend to the Educational Service Provider any revisions to the policy it deems necessary and/or appropriate. In its review, the Wellness Committee shall consider evidence-based strategies in determining its recommendations.

The Educational Service Provider shall report annually to the Board on the progress of the Wellness Committee and on its evaluation of policy implementation and areas for improvement, including status of compliance by individual schools and progress made in attaining goals of policy.

The Educational Service Provider is also responsible for informing the public, including parents, students and community members, on the content and implementation of this policy. In order to inform the public, the Educational Service Provider shall include information in the student handbook and post the policy on the Academy's website, including the Wellness Committee's assessment of the implementation of the policy.

The Academy shall assess the Wellness Policy at least once every three (3) years on the extent to which Academies are in compliance with the Academy policy, the extent to which the Academy policy compares to model wellness policies, and the progress made in attaining the goals of the Academy Wellness Policy. The assessment shall be made available to the public in the parent and staff handbooks or on the Academy website.
